OBJECTIVE

Aspiring to excel as a Frontend Developer, where my passion for creating visually appealing and user-friendly interfaces, combined with my proficiency in modern web technologies and dedication to delivering high-quality user experiences, can contribute to the success of an innovative organization. With a solid foundation in HTML, CSS, JavaScript and React.js, I aim to play a key role in making websites and apps look and work really well for users. My commitment to staying updated with the latest industry trends and my collaborative mindset make me well-suited to contribute to the dynamic and creative Front-End development initiatives of the company.

EDUCATION

El-Shorouk Academy - SHA   **Class: 07/2023**

  Bachelor's degree in Computer and Information Science.

Graduation project | Mental Help Web Application and Mobile Application   **Grad Project: Excellent**

- Our project involves delivering a full product for a client.
- The application helps in managing the time of the doctor as well as identifying the psychological symptoms the patient experiences by answering some questions and doing some tests.
- The product aims to make it easier for patients to seek medical help and for doctors to manage their time efficiently.

EXPERIENCE

- **IGCSE Schools (part time job) | 07/2020 - 08/2020**
